## Automotive Technician Training – USA Pricelist and Order form

The software is supplied as an Instructor’s full package setup DVD for in class use. It contains all eight 2008 NATEF accreditation units and the 2012 MLR, AST and MAST units plus STEM, diesel, and hybrid cars and our amazing resource database – and more. Up to 50 student users per school year may access the content online in a dedicated school/college LMS/VLE area where instructors have editing, reporting and grading access.
